

In 2012 Missoula Interagency Dispatch Center assisted with 522 incidents and followed 1355 flights. MIDC's main service is to the Missoula Unit of the South West Land Office, Montana DNRC, and to three ranger districts on the east side of the Lolo National Forest. Additionally MIDC provides support services to Plains Dispatch Center, whose main service is to the two ranger districts on the west side of the Lolo National Forest, and Plains Unit of the North West Land Office, Montana DNRC; Ronan Dispatch, whose main service is to the Confederated Salish and Kootenai Tribes on the Flathead Reservation, and to the National Bison Range in Moeise; Clearwater Unit / Lincoln IA Station, Anaconda Unit / Garrison IA Station of MT DNRC's South West Land Office.

Aside from flight following, the majority of incidents recorded at MIDC were wildfires, with the second highest number going to smoke checks. The most fires detected in a single day were fifteen, and the highest concentration of new starts was 50 over a fifteen day period in July and 53 new starts over a fifteen day period in August.

## Averages:

2012 was an unusual fire year for the zone. The majority of the fire load occurred on Missoula, Seeley Lake Ranger Districts, Clearwater and Missoula Units. Most lightning storms tracked through those same areas all season.

Superior and Ninemile Ranger Districts, Garrison IA Station, and the CSKT had a fairly average fire season. Plains/Thompson Falls Ranger District, Plains Unit, and Anaconda Unit had a below average fire season. Most storms either skirted those areas or missed them altogether.

Lolo NF	YEARS	Average Fires	Average Annual Acres
5 year	2008-2012	135	1734
10 year	2003-2012	161	20006

## Fires by Statistical Cause:

In 2012, 29% of the summer's fires within MIDC's initial attack area which include Missoula Unit (MSO), Missoula (D3), Ninemile (D4), and Seeley Lake (D6) Ranger Districts, were human caused; additionally, numerous non-statistical campfires were found unattended and still smoldering within the campfire ring.

Children	2	1%
Misc. / Unknown	12	7%

### Large Fires:

The first large fire of the season was the Dalton Fire in Lincoln IA Station's protection, on April 11<sup>th</sup>. The fire burned 440 acres in grass and timber. The remaining large fire starts occurred from mid-July through mid-September.

During the 2012 fire season, the Lolo NF hosted two Type 2 IMT's. DNRC's South West Land Office hosted two Type 2 IMT's; Plains Unit DNRC of the North West Land Office hosted one Type 2 IMT; and the CSKT hosted one Type 2 IMT. Additionally, 4 fires on the LNF were managed under Type 3 Incident Commanders, some of which were brought here to boost initial attack resources; DNRC managed 5 Type 3 incidents, and CSKT managed 9 Type 3 incidents.

### **Prescribed Fire Accomplishment:**

The LNF treated 3,528 acres with management-ignited burns during fiscal year 2012. Missoula Unit DNRC treated 345 acres, all of which were hand and machine piles. Missoula Field Office of the BLM treated 316 acres, and the CSKT treated 155 acres.

Additionally, fire and fuels crews completed several acres of pre-work on units to be burned in coming years.

### Seasonal Weather and Severity:

Starting around the first of April, the SW Zone started to dry out, pushing indices up into the moderate and high fire danger rating until the first of June when wet, heavy thunderstorms started tracking up from the southwest. BI's and ERC's remained close to average after green-up occurred until around the first week of August. At that point, they remained in the 90<sup>th</sup> to 97<sup>th</sup> percentile until around the first of October.

The 2012 fire season ran long with September and October at max or setting record ERC's. Throughout the season the lightning tracked almost entirely on the east side of the zone. We experienced very severe thunderstorms throughout the summer and into early September with frequent lightning, high winds, heavy rain and/or damaging hail. The majority of the fires on the west side and the Flathead Reservation were human caused.

The charts below show 2003 and 2007 as comparison years because both years were large fire years locally. 2005 was a busy fire season in the zone as well, but 2003 and 2007 burned significantly more acres.

\*CLW SIG is comprised of both Clearwater Stations; 241517 (manual converted to RAWS in 2010), and 241520 (RAWS replaced the manual station in 2010).

### **Resource Orders:**

MIDC received requests for CSKT resources to support the Wye Fire on the Blackfeet Reservation on January 5. On April 11<sup>th</sup> the Dalton fire started on Lincoln IA and burned 440 acres in grass and bug kill. The incident was managed in it's entirety under a Type 3 organization. On April 22<sup>nd</sup> we had a request from Region 9 for overhead to support the Mack Lake fire in Michigan. From that point we started seeing requests trickle in for the Southwest and really started mobilizing resources for the Southwest towards the end of May on the R1/R3 Agreement.

The first week in June, WY and CO started picking up heavy fire activity which impacted us quite a bit. Activity continued to escalate in Region 2 as central and eastern MT started to burn. The resulting flurry of requests for equipment, crews and overhead led to MIDC bringing in detailers to help support all the fires. The expanded dispatch operation continued to build as initial attack activity increased within the zone.

About the second week in July the IA Desk brought in night shift, and continued staffing that position until nearly the end of September. The Aircraft desk also began staffing detailers at about the same time as IA.

Activity did not slow down until around the first week of October with the arrival of season ending moisture. Two detailers continued on through October, one in Overhead and one in Equipment, to help clean up orders and do inspections on vehicles and equipment released from large fires.

Thinking fire season was finally over, on November 1<sup>st</sup> along came Hurricane Sandy and wreaked havoc on the east/northeast coast. MIDC mobilized two agency crews, Lolo Regulars and Mission Valley, plus miscellaneous overhead attached to T2 IMT's.

Summary of Resource Orders Processed at MIDC in 2012

### **Equipment:**

In 2012 Missoula Interagency Dispatch Center inspected contracted equipment on site at MIDC. We also utilized inspectors at neighboring dispatch centers, Missoula Unit, Ronan Dispatch, ranger districts and the incident itself for inspections depending on the proximity of the equipment to the fire, and the date / time needed. Overall we had 11 different inspectors at various times working at MIDC throughout the summer, with up to four on duty during August when over 250 pieces of equipment were inspected. At times, due to the workload of inspections coming in, NRCC was notified that we could not fill any more orders for that day.

MIDC Aircraft desk is one of the more complex desks within the Northern Region. MIDC flight follows all aircraft within the Missoula Dispatch Zone. This includes Regional and National resources in addition to the local State and USFS resources.

### **MIDC Aircraft Workload 5 Year Average**

USDA-Forest Service

# PERSONNEL EMPLOYED ON WILDFIRE PRESUPPRESSION AND SUPPRESSION ACTIVITIES

UNIT	
R1 - Lolo NF	
CALENDAR YEAR	
2012	

- INSTRUCTIONS: 1. Data for items 1a, 1b, and 2b should be taken from planning and budget records in the Supervisor's Office.
  - Items 1c, 1d, 2b, and 2c may be obtained from actual records in the S.O. or from the Ranger District. If obtained from the Ranger having intimate knowledge on use of his personnel, these items may be estimated. Complete accuracy is not required.
  - Item 3 may be estimated where large numbers of casuals are employed. Since each
    reemployment counts as a new employment, sufficient accuracy can be obtained by
    sample counts and measurement of time slips.

10000		NUMBER		
NO.	ITEM	SUB-TOTAL	TOTAL	
1.	Regular appointed personnel	- 78081		
	a. Full-time fire management (20 pay periods or more)	41		
	b. Part-time fire management	38		
	c. Others used on presuppression sometime during year	5		
	d. Others used on suppression (exclude those reported under a, b, orc)	15		
	e. Total (a + b + c + d)	0	99	
2.	Seasonal or short-term personnel	720		
	Regular fire control (crews, firefighters, patrol, lookouts, etc.)	84		
	b. Others (BD, KV, BR, R&T, etc.) who spent time on fire control work	60		
	c. Emergency firefighters (exclude those reported under a or b)	2		
	d. Total (a + b + c)		146	
3.	Total number of casuals employed on fire suppression	7	100	
	(Each reemployment counts as an employment)		111	
4.	Number of casuals (included in Item 3) employed for first time	- N		
	(Ranger's estimate is adequate)	12		
5.	GRAND TOTAL (1e + 2d + 3)	9	356
